## **Technical Rider**

### **Ground Support**

- 5 Front truss, and 5 Rear truss x 4 truss deep on both left and right with 8 towers 40' tall ( 6 in Front and 2 in the rear ), on the ones downstage are where the audio and video screens will be hung.

### **Stage and Raiser**

#### **Stage size**

52' wide x 40' deep with a height of 5'

This stage will need a monitor mix area of 12' x 16' x 5' at stage left

The four Sidefill points should be installed outside of this area.

#### **Risers**

There will be two stage risers for the Banda and Mariachi as indicated on the Stage Plot

The first one will be 3' high x 4' deep x 16' this one on the left side of the Stage is for Mariachi .

The second one will be 3' high x 4' deep x 16' this one on the right side of de Stage is for Banda-

Once again, the locations of these risers are illustrated on the Stage Plot page.

#### **Barricades**

Barricades should be similar to "Stage Right" style , not bike rack, and placed in front of the stage, sides as needed and any areas as to protect equipment and the public from harm. The house position may need bike rack around mix position to keep out the public.

#### **Video Systems** with Technician operators

For this show we will require two video screens with their respective projector and at least one camera to cover the Artist Performance. These screens should be hung from the ground support system, one on each side of the P.A.

## Technical Rider

### **Lighting**

We require a Lighting Director ( LD ) for the focusing and operation of the Par-64 and of the Intelligent Lighting.

### **Lights**

66 Par-64 Clear colors (White, Amber, Yellow, Pink)

### **Automated Lighting.** Total 20.

12 Wash (Studio color wash) or Studio Command

10 Pro Spot 575

### **Follow Spots Lights**

2 follow spot with operator

### **Public Lights.**

4 Blinder ( Mini Brutos)

All of the Intelligent Lighting for the majority of the time will be focused on the Banda and Mariachi area with slow movements (slow scene changes) not very many fast movements with some exceptions that will be stated at that moment.

***For Lupillo Rivera's Show we don't use fog machine***

### **Generator**

150 KV to 200 KV
